Work Experience

July 2022-	**NUMU World** Full Stack Engineer

Being a Full Stack at NUMU our job is to constantly improve the platform by integrating better technical solutions and teaching ourselves in the process.

- **ReactJS**, **NextJS**, and **GatsbyJS** for our web portals.
- **React Native** for our mobile (iOS & Android) app.
- **NodeJS**, **Laravel** and **WordPress** for our APIs.
- **MySQL** and **Firebase** as persistence layers.
- **AWS** as our main cloud provider.

Sep 2021 - July 2022	**Bahira Town PVT LTD** Jr. Software Engineer

Bahira town is Asia's largest real estate agency. I worked with the team of the finest engineers at Bahira town and developed various software solutions. Most notable are Design wing Automation portal and the human resources automation portal using **MERN Stack.**

2019 - 2021	**MERN Stack, Software Documentation, React Native UI / UX, Graphics Designing** Freelance

I received great feedback from my clients for the **software documents** that I prepared, documents including **Design documents, Requirement Documents**, and **Test Documents**. I also receive great feedback for the **UI and UX** I designed for the projects on Fiverr.

Education

2017 - 2021	**Bs Software Engineering** Comsats University Islamabad

I got great grades in my core subjects and my best achievement was that my FYP received great feedback from the committee and promising remarks from my supervisor

2013 - 2016	**Diploma of Associate Engineering** Construction Technology Training Institute

Being in an army institute I achieved great academic marks and I learned self-control, time management, discipline, and as well improved fitness.
